Ernestine Denise M. Borja
Approved By : Dr. Ernestine Denise M. Borja
Company Physician

Level	Maximum Benefit Limit	Room and Board (Confinement)
I-VI	30,000	Payward
VII-IX	50,000	Semi-private
X and Above	100,000	Regular Private

1. An approved Notice of Admission (NOA) is required for in-patient members to avail the Alturas Healthcare Program.
2. Members can only request up to their MBL limit, and requests exceeding it will not be approved. However, work-related cases with 100% relevance will be granted.
3. The deduction from the Maximum Benefit Limit (MBL) follows a general rule where 'work-related' percentage is deducted first, followed by the 'not-work related' percentage.
4. Final billing will be integrated with Philhealth, SSS, EC claims, and other government benefits before applying the MBL.
5. Non-work-related expenses may be eligible for Healthcare Advances upon approval from the supervisor and incorporator.
6. Healthcare Advance requests have a validity of 7 days, and if not approved within that timeframe, they will be automatically disapproved.

Voluntary Room Upgrading: Members occupying a room one category higher than their entitlement will be charged for the room, boarding, and any additional incremental costs.

Involuntary Room Upgrading: If a member must occupy a room one category higher due to non-availability (except suite room), the member covers the cost difference while AGC pays for professional fees and hospital bills. If a room becomes available, the member must transfer, or incremental charges (professional fees, room and board difference, hospital bills) will be billed. Incremental charges for voluntary room upgrading are the member's responsibility, except for Emergency Care.
